Serving Fairfield &
New Haven Counties

About Us

Star ABA's mission is to provide quality in home applied behavior analysis therapy to help children with special needs reach their full potential. Each program is individualized to meet the unique needs of each child. By honing the child's strengths, we teach and help them to overcome their challenges. Our goal is to work with families to produce a treatment program that will help enhance the lives of the children as well as their families.

Yale Study Center - Autism Program

230 Frontage Rd, NewHaven, CT 6520

medicine.yale.edu/childstudy

Are you or your child between 3 and 40 years of age?

If you or your child are between **3 and 40 years of age**, you can play an important role in research by participating in our study to help us learn about brain development. The McPartland Lab at the Yale School of Medicine is seeking individuals with **Autism Spectrum Disorder, Schizophrenia, or Typically Developing** children and adults. *Participants will receive a clinical evaluation and report, as well as compensation up to \$350.*

To learn more, contact Erin MacDonnell at autism@yale.edu or (203) 737-3439.
