

S.T.E.A.M (Science, Technology, Engineering, Arts/Athletics & Math) After School Enrichment Programs

The McKinley PTO would like your help to continue our After School Enrichment Programs for students from Kindergarten through Sixth grade, focusing on Science, Technology, Engineering, Arts/Athletics and Mathematics.

Do you have a talent, skill, sport, or specific topic that you would like to teach McKinley students? If so, please let us know and you can help with our after-school enrichment program! Our goal is to have 4-6 week classes, once per week, after school for 1 – 1 ½ hours. Fees, if any, will be based on the supplies needed for each class. This is a great opportunity to expand, entertain and, enrich our students’ lives!

Some ideas for classes are:

- Arts & Crafts
- Languages
- No Bake Cooking
- Garden
- Sports
- Fitness
- Knitting
- Chess
- Board Games
- Legos
- Beading
- Science
- Jewelry Making
- Electronics
- Karate
- Your own talents & skills!

If you are interested in participating in this program, please fill in the information below and return to the McKinley PTO! If you have a talent to share that may only take 1 or 2 classes, we can accommodate that too! We will be in touch to discuss the details. **Thank you!!**

Please return to PTO mailbox - After School Enrichment
